Demoliton of the LA building.

Demolition of the Liberal Arts Building began at the end of the Fall semester. These pictures were taken in the months before the demolition date was set, to document the condition of the building before it was torn down.

KC officials have not yet decided what will be done with the newly opened space from the building's demolition.

"We have evacuated the building and salvaged all of the things we have needed from it," said Dan Beach, Director of Special Projects & Liaison to the Board, at the time.

Demolition was completed by Spring Break.

Faces

In The *Crowd*

At any given moment, dozens or even thousands of students can be found roaming around campus. It's easy to overlook the walk between classes or the moments spent hanging out in the Lee Mall, but even these seemingly mundane moments are an important part of the KC experience. It is in these moments that the people who comprise KC's rich tapestry of personalities are in action. These are the moments where, if you focus, you can see the faces in the crowd.
